for all**

Lenovo

Slim & Stylish Look

With sleek contours, ultra-slim body, and linear rear cover surface, the RT-1016A features a 15.6" PCAP touch screen, and full suite of ports that are hidden in the clean rear cover. No screws can be found on its surface maintaining a neat and sleek look.

Clean Cable Management

Advanced cable management design delivers a truly clutter-free station.

Save Your Time and Money

The terminal can be shipped with customer line display or 10.1" 2nd customer facing LCD display attached and folded, saving deployment time as well as shipping costs.

Fanless Technology

The fanless technology allows the terminal to run quietly in all kinds of harsh conditions and - at the same time - provides a long service life.

Faster Installation and Serviceability

Rear cover can be removed easily and without tools, thus allowing faster installation and serviceability.
